

Mirasys – Training

Mirasys Ltd. is a leading provider of high-resolution video surveillance solutions.

Mirasys Professional Training Services offers product training for Security Professionals to learn how to smoothly and efficiently install, configure, manage and use Mirasys surveillance software. Training programs are instructor-led standard or tailor-made courses delivered in Mirasys Training Center in Helsinki, Finland or at customer's site. Our training team provides you, in groups or individually, theoretical and practical real-world experience in order for you to be self-sufficient in your own environment.

Mirasys NVR Installation Training

Objective of the training course

The objective of the training is to learn how to install, configure and manage Mirasys surveillance solutions smoothly and effectively.

Training method

The training course includes lecture presentation and hands-on exercises. The emphasis of the course lies on practical training.

Duration of training

1 day

Target group

The training course is designed for security specialists who need to know how to install Mirasys surveillance software and who want to learn about the possibilities the Mirasys system offers. The target groups for this training course are installers, security designers, maintenance staff and product managers.

Content of the training

- Mirasys as a company and product portfolio
- Basic structure of the Mirasys video recorder:
 - **Hardware** (Dell): Capture cards and I/O-cards.
 - **Administrators software** (Mirasys System Manager): First start and default settings of the recorder, configuration – connecting cameras, recording settings, camera settings, naming cameras, modifying motion detection settings-, and camera masks, adding profiles and users into the system and creating the Master and Slave structure.
 - **End user's software** (Mirasys Workstation): How to use and control Mirasys Workstation, including how to save camera views and modify user defined layouts.

For more information on course descriptions, course schedules or course registrations please contact training@mirasys.com. We are also happy to discuss how we can customize the training to meet your individual training needs.

We provide you the full picture – Our goal is to make you see it!
